Phone:

Hello,

Thank you for participating in Apple Education's equipment seed program. This program enables specially designated customers like yourself to "test drive" our new products at no charge. Due to the limited amount of seed equipment, we rely on your **prompt return** of these products after your evaluation period and/or at the conclusion of your event so that we may make them available to other valued customers.

Please read the following information, sign and date the bottom of page 3 below your company name and **fax the entire signed agreement back** to (865) 983-6570

**NOTE: EQUIPMENT WILL NOT BE SENT UNTIL AN AGREEMENT HAS BEEN RECEIVED.**

Please return all manuals, parts, accessories, software and internal parts with the equipment. Do not remove any video cards, memory, or other items from the machines. We cannot loan equipment out again without all of the parts. Please **do not** put stickers, tape, or any other type of label with adhesive on the equipment. Please return the equipment on the date that it is due, in the correct box, and in the same condition as you received it. Please ship the equipment back using the **2-day Economy rate airbills provided with the equipment.** We have found that timely shipping prevents equipment loss.

Please call me if you have any questions.

Thank you,  
David Hitchcock
